**DIGITAL PANEL METERS  
LARGE FORMAT METERS  
ISOLATORS & SIGNAL CONVERTERS**

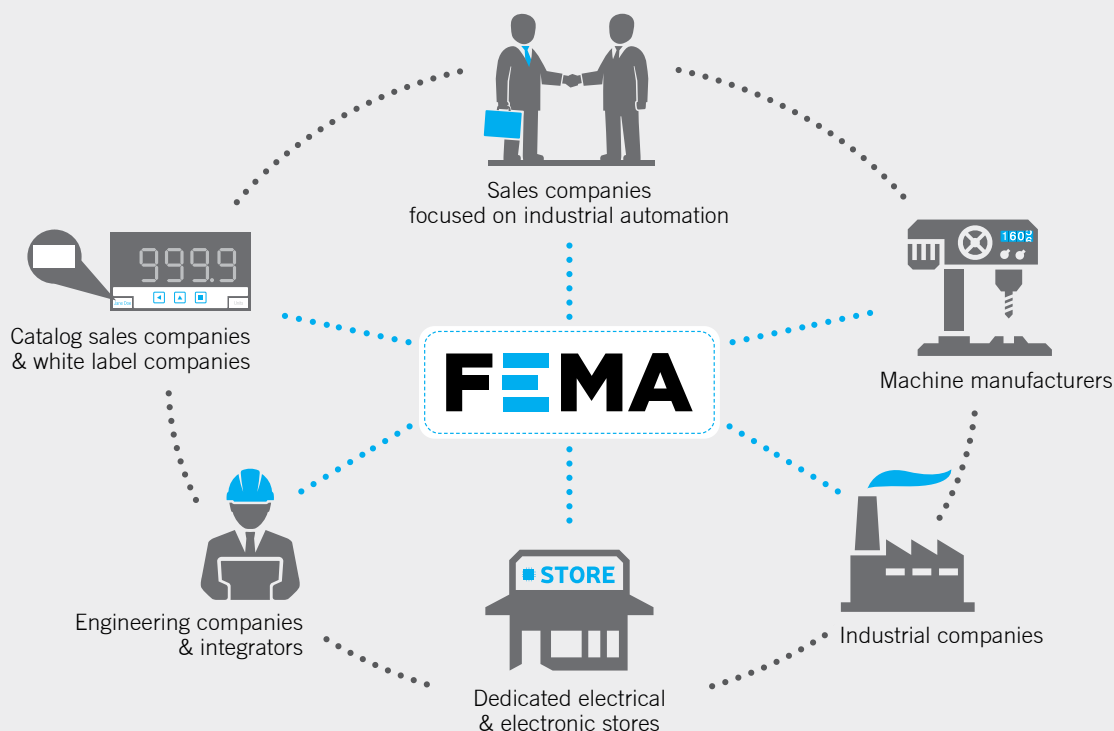

**Manufacturer of electronic instrumentation for the industrial automation field since 1969.** FEMA provides to national and international companies with quality instrumentation, focusing into **the quality on the analog signal acquisition and isolation between circuits.**

With its main facilities located in Barcelona, FEMA **designs and produces** each instrument following a strict quality control. Today, **the reliability and quality of our instruments allows us to export more than 60% of our production world wide,** through **an extensive network of distributors and associated customers.**

With **more than 45 years** in the market **FEMA is recognized by its national and international customers** with their trust and confidence, and from external organizations, achieving its first official **ISO9001 Quality Certification** in 1999 and the **Best Export Award from the Chamber of Industry and Trade of Sabadell** in 1993.

**With a wide catalog of instrumentation** both for digital meters and for signals isolators and converters, **FEMA is the reliable partner** for your instrumentation needs. **For any additional information** about our Small Catalog 2016-2017, **check the FEMA General Catalog** or **visit our web page [www.fema.es](http://www.fema.es)**

# SERVICES

**Urgent !!**

## URGENT ORDERS

Priority service for urgent orders.  
Material ready for delivery, at the agreed date and hour.

**Courier**

## GLOBAL SHIPMENT

Shipments arranged every where in the world, with web tracking service for your information and security.

**Customized**

## CUSTOMIZATION

Customization of the instrument or even instruments developed based on your requirements.

**CE Product**

## QUALITY

Quality instruments designed and manufactured in compliance with CE regulations.

**Support**

## PRE AND POST SALES SUPPORT

Our team identifies the instrument that best suits your needs and is ready for support at installation time.

**Extended Warranty**

## EXTENDED 5 YEARS WARRANTY

Extended warranty from 2 to 5 years in all our products without additional cost through our web : [www.fema.es](http://www.fema.es)

SERIES B

# digital panel meters

## general industry applications

FEMA designs digital panel meters based on each particular signals needs on the industrial sector. Reliable instruments, with clear and sharp reading, variety of sizes, digits, colors, signals and options. The 'general industry applications' series has the instrument you need for your specific application, and FEMA is the reliable partner for your company.

The following table contains **information on series M, K, S and B**. For additional information, contact us or check our full catalog at **[www.fema.es](http://www.fema.es)**

|                              | SERIES M   | SERIES K  | SERIES S  | SERIES B  |

SERIES C

SERIES V

INST. L35

# digital panel meters series OEM for industry

FEMA digital panel meters from the OEM series are designed to achieve a competitive price while acquiring a wide range of different signals in a single configurable instrument. Modularity, price and specifications makes OEM series a range of instruments highly competitive.

The following table contains **information on series C, V and L35**. For additional information, contact us or check our full catalog at **[www.fema.es](http://www.fema.es)**

|                       | SERIES C   | SERIES V   | INSTRUMENT L35   |
|-----------------------|--|--|--|

**SERIES BAR**

**SERIES RD**

**INST. LAP**

# digital panel meters special series

Within the 'special series' section are several examples of developments for specific industrial needs, High levels of quality and performance, each instrument fulfills specific needs : 'Full equip' meter, bar meters, LCD display and parallel BCD code repeaters are only 3 examples of our range of special instruments.

The following table contains **information on EC4-ZR3, BAR, RD and LAP**. For additional information, contact us or check our full catalog at **[www.fema.es](http://www.fema.es)**

|                              | EC4-ZR3  | SERIES BAR   | SERIES RD  | INSTRUMENT LAP   |

**SERIE ISC**

**SERIES CCT-100**

**SERIES CCT-55**

**SERIES FAR**

# signal converters & isolators

Signal converters with galvanic isolation, for a wide range of electrical signals of common use in industry. From simple process isolators without configuration needs, up to more complex units for all type of signals : temperatures, process, voltages AC and DC, currents AC and DC, frequencies, resistances, etc. The following table contains **information on series ISC, CCT-100, CCT-55 and FAR**. For additional information, contact us or check our full catalog at [www.fema.es](http://www.fema.es)
